Task Specification for Project					
Project Name	Web Programming Project			Major	Computer Science & Technology
Student Name		Student ID		Class ID	2251520114C
Project Title	A Small Local Shop Website				
Date	From Dec. 2, 2024 To Dec. 13, 2024				
Contents and Requirements					
<p>Design and develop a small website for the shop.</p> <p>Design Requirements:</p> <ul style="list-style-type: none"> The link menu includes home page, about us, Service/Goods, Contact us, Login, Sign up, Logout. Have 3-layer web directory at least, be around 18 pages in size. All images should be optimized for the web. Use CSS for page presentation (background images, all aspects of fonts, colors and, where possible, layout) Demonstrate a 3-column layout on at least one page (or something that requires you to practice page layout with CSS). Include a shop logo and a site navigation that is just a simple list with some great style. Include a simple contact form styled appropriately for the site (even though the form may not yet do anything). The contact page should include a Google map that shows the shop place. If possible, a table used to display tabular data, such as a product list or fees and charges table. Have a complete linked structure and consistence in page style such as color, background, font, and layout. Includes the login and registration (sign up) page. The registered users can login to their account. And the registration can be done by following the sign up link. Form validation should be done in Login and registration (sign up) page with JavaScript. The login page includes a verification code. Write the project report in accordance with the specification of course design report.
